ABOUT ME

Full-Stack Developer with 3+ years of experience building scalable web and mobile apps. Skilled in React, Reactnative, Mysql, Node.js, and PHP, I focus on delivering user-friendly solutions that drive business growth. Looking to bring technical expertise and creativity to impactful projects.

EXPERIENCE

Full Stack Developer　　　　　　　　*Mar 2025 - Jun 2025*
Dr Rex Gadgets {drrexgadgets.com.ng}

Lead developer for the company's official website
- Developed and maintained core features of the company's website using PHP and JavaScript
- Collaborated with UI/UX designers to deliver a seamless user experience
- Optimized website performance and added multiple sections to enhance the premium feel
- Built a custom Admin Panel to enable easy product management by the owner
- Engineered the site for flexibility, allowing full customization by the business owner without code changes

Frontend Developer　　　　　　　　*Jun 2025 - Oct 2025*
Swift Pickup & Logistics {swiftpickup.com.ng}

Frontend developer for the company's official Mobile app
- Built polished, cross-platform mobile UIs in React Native for ride-sharing and logistics apps
- Integrated live maps and real-time driver/passenger status updates
- Designed intuitive forms for all the screens present in the UI design
- Implemented responsive layouts and consistent theming for iOS and Android
- Collaborated closely with backend/API teams to ensure seamless user flows

SKILLS

- FRONTEND : HTML5, CSS3, JAVASCRIPT, REACT, REACT NATIVE
- BACKEND: NODEJS, PHP
- DATABASE: MYSQL
- OTHERS: Git, GitHub, REST APIs, Firebase, Supabase, Tailwind CSS

PETER AWOTUNDUN
Full Stack Web & Mobile Developer

PROJECTS
